MCUI UC Technical Update Bulletin No.21

Date: 21st March 2026

Aprilia 1100 RSV4 , Ducati V4 1100 & V4S 1100 Machines

Background:

As of 17th February 2026, the FIM machine homologation for 2026 was released and the following machines are included for Superstock class, Aprilia 1100 RSV4 , Ducati V4 1100 & V4S 1100. Bulletin #9 in April 2024 addressed the initial Aprilia RSV4 but now this needs updated and the Ducati models included . MCUI UC Technical will follow the MCRCB/MSV regulations relating to this subject as per update below:

Update:

Aprilia 1100 RSV4 , Ducati V4 1100 & V4S 1100 Machines will be allowed to compete within USBK and Ulster roads including NW200 provided they comply with the following :

Superstock motorcycles over 1000cc and up to 1100cc 4-cylinder, must be equipped with the MCRCB/MSVR specified ECU and dash, see MCRCB/MSV authorised parts list. Full details of the motorcycle model and the MCRCB/MSVR prescribed technical interventions will be published by Bulletin. This ECU option and specification may be utilised for all machine models in the 1000/1200 4 cylinder class only. The Aprilia 1100 RSV4 can only be equipped as per BSB pathway controlled ECU and firmware. No Stock or 'Kit' ECU can be used within MCUI UC events

Bulletin Issued by:
